The lead teacher of the Integration Class at the Adolf-Kolping-Hauptschule, Frau Akcicek (middle), and the Vice-Principal of Gymnasiums der Stadt Kerpen, Herr Riediger, with some of the project pupils at the Festival of Cultures on 3.11.

## ERASMUS+ PROJEKT - NEWSLETTER NOVEMBER 2016

# "WE IN EUROPE - SHAPING THE FUTURE"

The project pupils have been working on the contents of our **Erasmus+ Project**. At the moment they are concentrating on the basic background of migration and dealing with the respective school integration policies. Further contents to be prepared are:

- the review of already existing projects for integration concerning their efficiency,
- the analysis of the question “How does integration succeed?”
- the search for good examples of integration projects in other European countries.

The concrete work on these contents will take place at the end of January at the projects pupil exchange on Gran Canaria in dialogue with the Spanish and Hungarian pupils. Parallel to the preparation of these contents for the exchange all the project participants from Germany, Spain and Hungary will communicate through **eTwinning** and exchange their first ideas.

The planning of the cooperation with the Hauptschule Kerpen has also begun. The first contacts with the lead teacher of the integration class in the Hauptschule, Frau Akcicek, took place during the visit to the integration class in the AKS Kerpen. Pupils shared their likes, interests and hobbies in a **survey**. These results are the starting point for further planning.

The project pupils of the gymnasium presented their project with a lot of commitment at the **“Festival of Cultures”** in Kerpen on **3.10.**

**Many thanks to them!**

On the Day of Tolerance, 16.11., our school will have a **balloon action** which will be directed **against xenophobia and racism** and champion respect for each other. The 1<sup>st</sup> Deputy Mayor, **Mr. Addy Muckes**, and the Integration Representative of the Kolpingstadt Kerpen, **Frau Annette Seiche**, will participate.

This balloon action will take place at the same time in our project partner school in Spain and Hungary.
