displayed on 16th November
(Headmistress Ms Strucken)*

After Ms Friedrich and Mr Stucken-Bathke worked in their classes on the topics “The others and I” and the “German Constitution”, Mr Schwerlak will go further in Politics in Class 8. They will be asking the question “How is integration policy being implemented in school?”

Existing projects on integration are being reviewed by Mr Woidtke and in his European Course and Mr Janssen in Class 11 Social Sciences, where they are searching for successful integration models in Europe.

Moreover, the topic “experiencing diversity” will be undertaken under the guidance of Mr Schoenen in “Culture Time” with the goal of taking part in the competition “Diversity Unites”, which is sponsored by the Ministry of Education.

The pupils in Mr Potes’ Religion class are creating the “ABC of Tolerance” and occupying themselves with the history of negative stereotypes.

Mr Lankes, Ms Kehr and Ms Schrötter-Scheufens will be developing a project logo which conveys the idea “We in Europe – Shaping the future”. This will be created with reference to the topics of racism and democracy in Mr Kirk’s Politics class. The best idea will be awarded a prize and presented to the project schools at the end of January on Gran Canaria as well as during the European Week in May.

In the context of the International Day of Tolerance an impressive poster against racism and exclusion was exhibited by Mr Lankes in the foyer.

These project topics will be dealt with at the same time in our partner schools in Spain and Hungary. The first results will be compared through eTwinning and then discussed at our project meeting in January 2017.

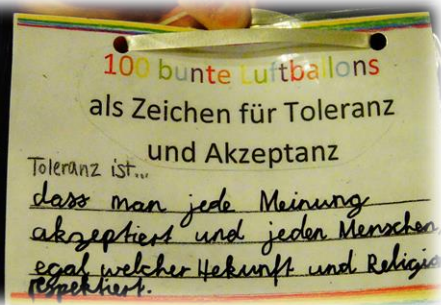

Don't miss! Don't miss! Don't miss!

3rd December “Open Door Day”

Talk to us!

IMPRESSIONS OF COOPERATION

100 balloons for Tolerance

On the International Day of Tolerance, 16th November, a balloon action was carried out simultaneously with our partner school in Spain. Unfortunately, the Hungarian school had to postpone their action on 8th April (the Day of the Roma) because of bad weather. Afterwards, in cooperation with the AKS Adolf-Kolping-Hauptschule Mr Venatier (supported by Mr Rütthlein, Ms Eberlein and Ms Bütgen) organized activities according to the motto "Sport integrates" with 17 pupils from the integration class and our pupils. The pupils are looking forward to the next action.

Whole-hearted thanks to all who have been grappling with the question "What is Tolerance?" and have been cooperating with the project!

"We all descend from the same tree"

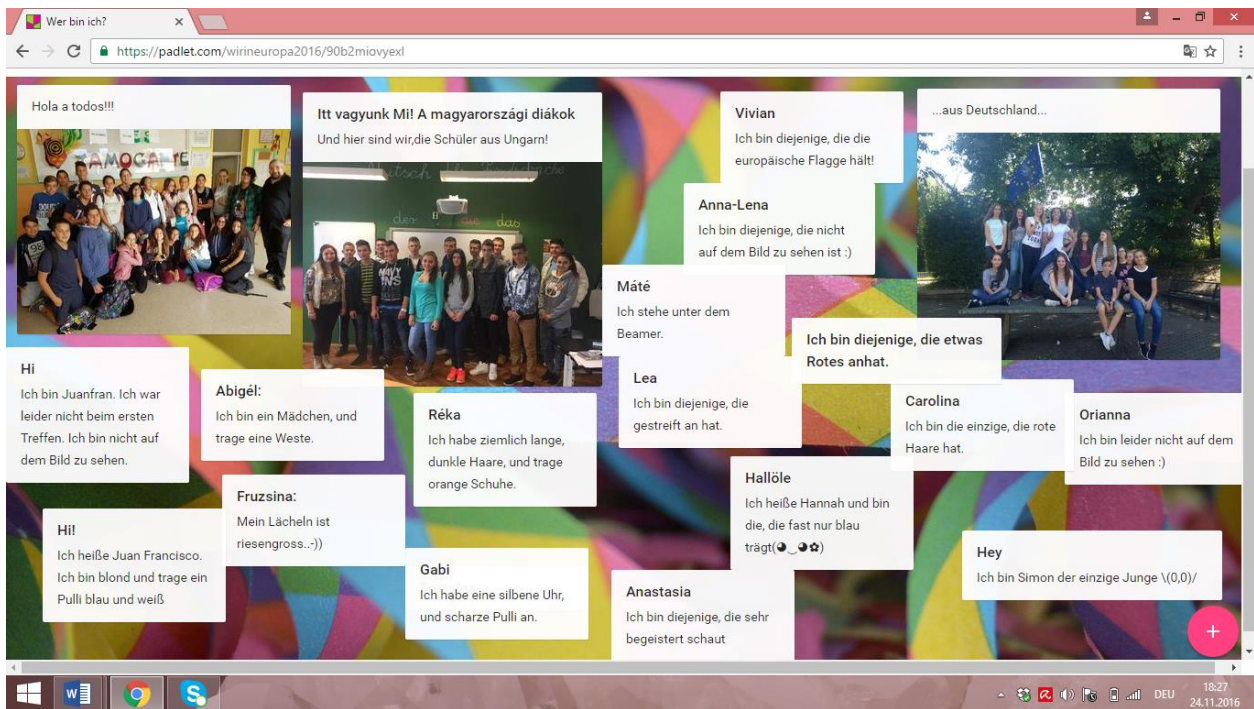

"The balloons flew into a perfect sky with the message "We have no room for racism."

Several workshops took place on 16th November in Hungary.

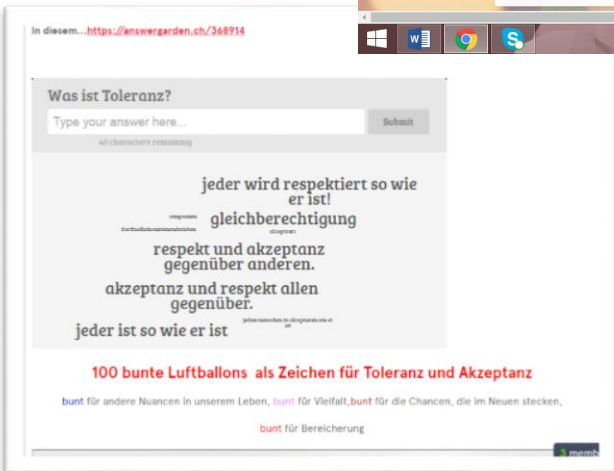

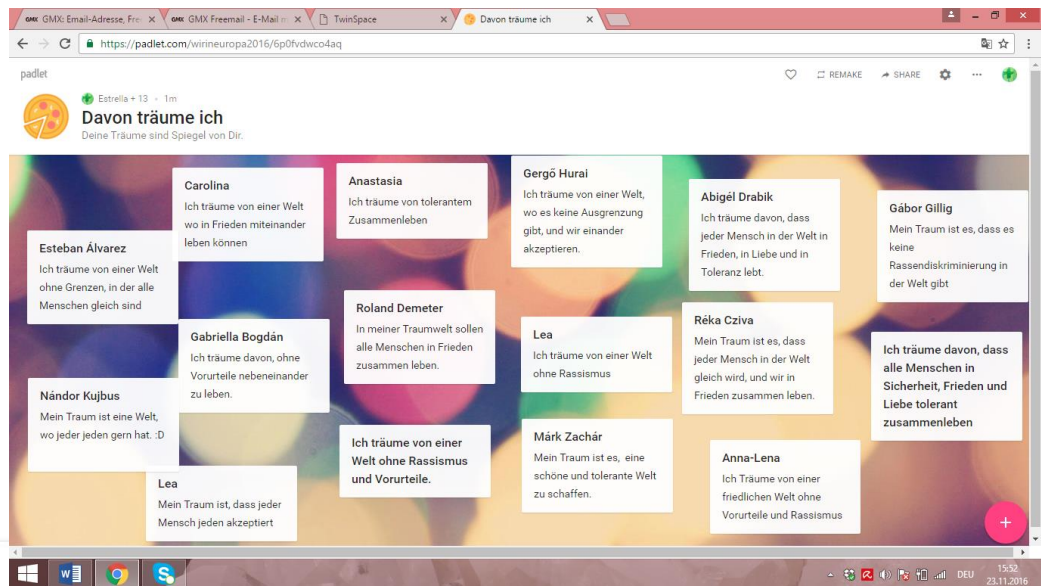

Be patient! Until the end of January, when the project pupils from all three countries meet each other personally, the project work will be continued through eTwinning, our digital platform. After some initial difficulties, the pupils have finally established the first contacts and are working cooperatively with the help of online tools. Parallel online meetings will guarantee successful work.

The pupils meet others in a playful way

A digital board reveals the wishes of the pupils in this project.

An online mind map acts as a background for our tolerance action.
